How are you? Hope you having a good day. You have clean and pure heart that is willing to help children here. We are doing great despite of rainy days. Thank you very much for the books that you are sending to Libraries 1, 2, and 3, Children read a lot of different interesting books not only kids but also mothers who are helping their kids on how to read, they love books of Natures. They are having fun with yoga books they imitate it. Children are sad for not meeting you. God bless you all.
