

Today's resume - what we would like to ask for SPM - 2023, March 10

- 1 To Liza Congratulations on your new baby!
How do you manage to take care of your baby and the library work?
- 2 Current operation of libraries: Are they financially ok?
- 3 From the Report of Mr. Gohda:
We newly heard about the Dam and a problem of the passage to the cottage.
We think we need to have a meeting once a month to pick up your problems close to you.
- 4 Reconstruction of the library no2 (from Mr. Miyazaki):
It is necessary to make a corporation company and the thing is how to make it.
As this project is for everyone in your area we need to advertise and collect donations locally. Also it is necessary to gather the local ideas for the library as this is your library.
- 5 Increase your usage of the current libraries –
how about collaboration of users of the cottage?
- 6 Cottage:
Who build and manage it? How about the users? Current situation?
- 7 Translaton:
It is uncertain to do in Japan and it's better to search the way to do in your area as it is not clear how President Marcos handles the other cultures.
Let's start thinking for your self-support !
- 8 The construction process of Dam:

Additional confirmation from Miyazaki

- 1 Reconstruction of the Magata Library2
 - Since the ownership is unclear, we will send a letter of confirmation and a request for cooperation to the mayor of Tanay.
- 2 We have received a report that the deterioration of the Magata library 2 is getting worse. Do you do the minimum necessary repairs? "If so, please prepare an estimate for repair costs." (For example, roof repair, etc.)
- 3 We would like to plan for the Saichare members to visit the site in 2024Jan.
